## About Me

Motivated and creative Software Engineering student at Superior University specializing in app development using Flutter & Firebase. Built a real-time local service finder app. Strong in UI/UX, Firebase Auth, Firestore. I enjoy solving real problems and want to create apps that help people in everyday life.

## Experience

Flutter Developer (Academic Project)

Superior University – Lahore

May 2025– Present

- Developed a Local Service Finder App using Flutter and Firebase
- Integrated Firebase Authentication and Firestore Database for real-time user and service data
- Designed clean, user-friendly mobile UI for Android
- Collaborated with classmates to simulate real-world team workflow
